Who should attend?

Anybody who wants to learn about making data-driven decisions with the CTEOS survey or Launchboard resources. These workshops will demonstrate best practices for utilizing these resources to improve CTE program performance and better assist students in achieving their workforce goals.

Please note this is a hands on workshop. Each attendee will need to bring their own laptop or favorite computing device.

**Please have access to Launchboard before registering for this event. Information on how to register for Launchboard is available at calpassplus.org.*
