Cal-PASS PLUS is California's actionable system of data that links student performance from pre-K through 12, to college and the workplace. Cal-PASS Plus' mission is to provide actionable data to help improve student success along the education-to-workforce pipeline. Collaboration using this data will inform better instruction, help close achievement gaps, identify scalable best practices, and improve transitions. Cal-PASS Plus offers longitudinal data charts, detailed analysis of pre-K through 16 transitions and workplace outcomes, information and artifacts on success factors, and comparisons among like universities, colleges, K-12 school systems and schools.

As part of our regional SB1070 CTE Pathways grant, we are working towards standardized data collection and reporting systems for regional community colleges and K12 partners. Our goal is for all regional community colleges to update their Cal-PASS MOU before December 2015; and for a majority of our regional K12 Districts to have current Cal-PASS MOUs, upload missing data and commit to uploading data going forward before December 2015.
